RIVER PLATE RAILWAYS.

The last mail brought from London a number of annual or half-yearly reports of Argentine and Uruguayan railways, the contents of which may be briefly stated as follows:—

Great Southern Railway.—The report is for the year ending June 30th 1892, and is the most favorable of all before us, shewing a dividend of 5 per cent for the year, besides carrying forward a sum of £60,000. The Board condescends to pass a vote of praise on the management of Mr. Barrow, in which we think the public of Buenos Ayres will cordially agree. We venture to say of this, as of other lines, that if there were no London Board the Great Southern line would do much better. Therefore we congratulate the Directors and the shareholders that, in spite of such drawback, the dividend is 5 per cent.

During the year under review there were 4 branch lines opened to traffic:

	Miles
Canuelas—Tandil	162
Tres Arroyos—Bahia Blanca	119
Ayacucho—Quequen	116
Cañuelas—Lobos	21
Total	418

The G. Southern railway has now 1,040 miles in traffic, being the longest system in South America and representing an outlay of £12,000,000 sterling. In fact it is one of the most valuable railways in the world, and leaves all other River Plate enterprises far behind. The traffic returns compare for the years ending June 30th thus—

	1891	1892
Passsengers	1,931,000	2,175,000
Goods, tons	810,000	668,000
Gross receipts, £	1,098,000	956,000
Expenses	518,000	396,000
Net profit	580,000	560,000

The result of good management is shewn in the fact that the net earnings per train mile rose from 64 pence in 1891 to 69 pence in 1892.

Buenos Ayres and Rosario—This is the next line in point of length, 905 miles; the report before us is for 6 months ending June 1892, compared with the corresponding half-year of 1891. The line stands thus:—

	Miles.
B. Ayres to Tucuman	726
Santa-Fé branches	165
Pobladores line	14
Total	905

During the half-year 72 miles of branches were opened to traffic, and the lines now completed represent an outlay of £9,000,000 sterling. In order to meet the depreciation of currency the fares have been fixed at a rate of 100 per cent premium on gold, which we do not consider too high, the market premium having averaged 245 per cent during the said half-year. Traffic returns compare with those of the same half-year in 1891 as follows:—

£	1892.	1891.
Gross receipts	265,000	220,000
Expenses	127,000	114,000
Net profit	138,000	106,000

There was increase of 31 per cent in the net earnings, which was probably in great measure due to fixing the tariff so low. It was impossible, however, to declare any dividend, the fixed charges amounting to £158,000, or £20,000 in excess of earnings. This Co. is said to be in treaty to purchase the Argentine North Western or Tucuman Sugar-line, 112 miles, but this might prove a risky speculation, as it is commonly believed that the Chaco sugar-fields and the proposed beet-root plantations at Santa Cruz will completely shut up the Tucuman planters before the close of the century.

Central Argentine—This once flourishing line ranks third in length, having now 732 miles in traffic, including a new branch from San Isidro to Capilla del Señor (35 miles) opened last July. It is proposed to carry forward this branch 25 miles, to San Antonio.

The traffic returns for the half-year ending June, 1892, compare with those of the corresponding half of 1891 as follows:—

	1891	1892
Passengers	1,291,000	1,374,000
Goods, tons	394,000	601,000
Gross receipts, £	240f000	267,000
Expenses	167,000	174,000
Net profit	73,90	93,0000

It was impossible to declare a dividend, since the fixed charges amounted to £88,000, leaving only £5,000 for share-holders, and a half-yearly dividend at 1 per cent would call for £30,000. Nevertheless it is gratifying to see that things are mending, in spite of Mr. Cooper's bullock-carts. We may observe that these bullock-carts were not an invention of Mr. Cooper, for we saw last week a letter of a farmer at Cañada Gomez, who says.

"I am doing a good business by letting my draught oxen.

It appears, however, that the Central Argentine is giving more facilities to the public than before, having run 949,000 train-miles in the half-year, against 765,000 in the half-year of 1891 Nor did the Co. lose anything by this condescension, for we note that the net earnings per train-mile run were 23 pence, the same as in 1891.

Pacific Railway.—This line shews signs of recovery. In 1889 it was worked at a loss of £33,000: in 1891 there was a net earning of £20,000; but the fixed charges amount to £140,000, and the Government (naturally enough) refuses to pay the guarantee, seeing that the Co. owes 50 per cent of its gross receipts since 1888. If the Co. had money wherewith to build hotels at Devoto, Hurlingham and San Miguel, and issue cheap return tickets (say one dollar currency) the local traffic would, especially in summer, multiply 500-fold.

Uruguay Railways—The three principal lines are in reality one, all run by Messrs. George Drabble and John Fair in London, and H. Chamberlain and Henderson in Montevideo. The Central Uruguay, 196 miles, from Montevideo to Rio Negro, represents a capital of £2,700,000, on which it earned two years ago a net profit of 8 per cent. But it has since then taken over branches of a non-paying character at a high rent, the system now covering 605 miles, which have cost £6,000,000 sterling. The fixed charges are £93,000 per annum, and the surplus earnings for 1892 are not quite enough to allow a dividend of 1 per cent. But, by drawing £2,000 from the reserve the Co. is able to pay a dividend, which with that of the preceding half-year makes up 2 per cent for the year. The Central Uruguay system carries about 500,000 passengers and 400,000 tons yearly. The carriage of limestone and building materials has fallen away to nothing.

SIERRAS OF CORDOBA.

OBSERVATIONS AT SAN JORGE.

The late Dr. Scrivener, after 40 years' experience, used to say that mankind would one day come to understand what a valuable Sanatorium the Sierras of Cordoba offered to all kinds of patients, and that Sinsacate, Tanticuche, Cosquin, Jesus Maria and Alta Gracia would draw as many thousands of visitors as Nice, Mentone, Cannes or the mineral springs of Germany. We are reminded of this by the following extract from a letter of Mr. W. G. Davies, Director of the Argentine Meteorological Office, Cordoba:—

Dear Mr. Pilcher.

"I herewith remit you summary of your observations up to date, a copy of which I send to Dr. Corrazutte in Santa Fe, telling him there is no place in the country to be compared with San Jorge as a health resort, especially for those suffering from throat and lung troubles."

The Estancia San Jorge stands 4 leagues west of Jesus Maria station, 3,030 feet over sea-level, in 30.55 S. Lat., 64.15 W. Long., and we condense the observations of the past 7 months.

The following table shews what a delightful climate the Sierras of Cordoba enjoy even in winter, although it is colder there in the month of June than in Buenos Ayres.

Monthly average, Fahrenheit.

	San Jorge	B. Ayres
March	64	70
April	58	62
May	53	57
June	47	52
July	50	50
August	49	53
September	57	57

The great feature of the Sierras is the dryness of the climate: the ordinary rainfall of Buenos Ayres (1875-1880) for the 7 months under consideration would be 19 inches, whereas the San Jorge returns shew only 10 inches, viz:—

Rainfall, inches.

	San Jorge	B. Ayres
March	4·2	3·8
April	2·6	2·8
May	1·8	3·5
June	0·0	2·8
July	1·2	1·7
August	0·7	1·9
September	0·0	2.6
7 months	10·5	19·1

Owing to the elevation of San Jorge the barometric pressure differs notably from that of Buenos Ayres, the former ranging from 27.2 to 27·4, the latter from 30·3 to 30·6.

Mr. Pilcher writes us that he has a family hotel at the estancia San Jorge, open all the year round, at a charge of $3½ currency daily, including horses (but not saddles). Visitors can bathe under the cascades, and spend the day in the thick woods, or hunting. There are carriages to the Jesus Maria station.

MAILS FROM BRASIL.

Rio Janeyro, Oct. 25th.

There have been seven cases of yellow-fever at Santos within a few days.

The *Jornal* is informed that some Sao Paulo planters, anticipating the passage of the Chinese bill, made inquiries in London in regard to chartering two steamers to bring out 2,000 laborers. The reply was that it would cost £25 per head to bring them to Brazil, and that the Chinese Government would probably interpose such obstacles to the business as to render the speculation impossible.

After mature reflection Col. Dionisio Cerqueira the Brazilian representative in the Misiones boundary arbitration, left for Southampton on the 23rd on the Royal Mail packet Tamar. After the customary visit to Paris, he will proceed to Washington.

Among the passengers who left for Europe on the Tamar was Dr. John E Hill, who has been making the preliminary surveys for sanitary improvements in Santos. These surveys are to be submitted to Professor Fuertes, of Cornell University, for the elaboration of a definite scheme, which, after being submitted to various engineering and sanitary experts, will be presented to the state Government of Sao Paulo for its approval and execution.

The occupation of the burglar ought to be a paying one here in Rio de Janeyro. Hardly a night passes without a successful adventure of that description, and it is very rare that the criminals are caught.

The formal inauguration of the South American Cable Co's service between Brazil and the coast of Africa occurred on the 20th inst. The new cable has a total length of 2,103 marine miles, the extension from Pernambuco to the island of Fernando de Noronha being 347 miles, and that from this island to S. Luiz de Senegal, on the coast of Africa, being 1,756 miles, At Senegal the new cable connects with the Spanish National Submarine Telegraph Co's line which runs to Cadiz, touching at Teneriffe and the Canaries, and at Cadiz messages will pass to the Eastern Telegraph Co's lines for Great Britain, and to the cable systems of the Mediterranean The head office of the new company is located in London, and its legal representative in Brazil is Dr. Leitao da Cunha. The rates established are six to seven francs a word from Pernambuco to the principal points of Europe, the exchange up to end of December being fixed at 400 reis per franc, which gives a very great reduction from the rates heretofore ruling. The press will enjoy 50 per cent. discount.

The *Jornal* of the 15th was informed that Messrs. Morton, Rose and Co. had called upon the Sapucahy company for about £500,000. This was denied by a director on the 16th, but the *Jornal* replied that the telegram had been seen and that Morton, Rose and Co. had given the company to November 15th to settle the business

The new church organ which was presented to the English church of this city by Mr. Henry Lowndes, Conde de Leopoldina, was heard in regular service for the first time on Sunday last, and It is considered to be the best instrument of its kind in Rio de Janeiro.

Last week the city was in serious danger of being deprived of its supply of beef, The municipal council, it was said, owed to drovers for cattle already bought the sum of 1,400,000$, which it was unable to pay, and the drovers consequently refused to continue to sell to it. The minister of the Interior, however, went to Santa Cruz and succeeded in inducing the drovers not to cut off the supply of beef. It is stated that he promised them that the government would be responsible for the payment of the accounts. It is quite time, in our opinion, that the municipality were deprived of all control over this and every other public service.

The sudden illness and death of Capt. Wm. Orr, of the British ship *Beacon Rock*, on the 14th inst., was made the occasion of a very touching and impressive funeral in harbor on the following morning. Every English ship in the port was represented in the procession of boats, which left the ship's side at 8 a.m. and conveyed the deceased to the British cemetery in the Gamboa district of this city. The coffin was covered with the Union Jack, and bore a beautiful wreath of flowers with the inscription, "From his friends—Rest in Peace," which was placed there by Capt. Corkhill, of the British ship *Crown of India*. The pall-bearers were six men of the deceased master's own crew, and the funeral arrangements were carried out by Capt. Kidd, of the *British Empire*. The deceased, who had only recently arrived in port from Glasgow, was a native of Scotland, 56 years of age, and leaves a wife at home to mourn his untimely loss. —*Rio News*.

OUR LONDON LETTER.

(From our own Correspondent.)

Oct. 1st

There was rain this morning in London, but sunshine quickly returned. The weather during the last month has in general been warm and lovely. The holidays are however at an end. There is a mass of interesting news which cannot be overtaken in correspondence. Firstly there is the Cabinet Council, evidently called together to decide upon the Uganda question. The decision is well described by the *Daily Chronicle* as "Assisted Evacuation;" a heading borrowed by the *Pall Mall Gazette* this evening. Mr. Gladstone returned last night to Hawarden and is reported to be much fatigued. The *Pall Mall Gazette* has changed its proprietor. The new proprietor or nominal purchaser is Mr. T. Dove Keighly, a member of the National Liberal Club. Much interest is taken in the form of Liberalism the celebrated evening journal will adopt when the new purchasers take possession on October 15th. The Irish question has assumed great and active interest by the publication in the "19th Century" of Mr. Redmond's manifesto, which is conciliatory and much lauded by the British press. The Nationalists have followed suit with a shorter manifesto. Mr. Morley kas written to Mr. McCarthy informing him that the government will during the recess appoint a small commission to investigate the condition of the evicted tenants. This following the "lifting" of the Crimes Act has inspired Home Rulers with faith in the Gladstonian Government and has driven the *Times* to use strong language in its despair of the cause of oppression —or as it calls it "law and order."

The Vienna correspondent of the *Standard* produces a tale which identifies a Hungarian named Szemeredy, seemingly once well known in Buenos Ayres as an unqualified medical practioner with "Jack the Ripper."

The correspondent has interviewed the president of the Vienna police, Hofrath Ritter von Steiskal, who said: "I formed ideas of my own as to the Whitechapel murders at the time I read of them. My theory does not exclude the possibility of a man like Szemeredy being their perpetrator. I must, however, distinctly state that as yet we have no indication whatever to connect the two series of crimes; and not before we come across some proof that Szemeredy ever was in England at all, and especially that he was in London during the critical time, can further investigation in this direction be profitable. I am without any official document or copy of any document concerning the past life of Szemeredy. The story of his life I, like you, read only in the newspapers and in the 'New Pitaval,' where the murderer of Buenos Ayres is the subject of s separate chapter. We know only one thing of Szemeredy—namely, that he was in Vienna in 1889 from Aug. the 2nd to the 13th of that month, when he left, as he stated, for America. You know that in Austria every stranger must on arrival fill up a police form stating his name, profession, age, &c., and here I show you two such forms filled up by Alois Szemeredy. He lived the first six days in Springer Gasse, and afterwards five days in Circus Gasse. In both forms he calls himself an 'Amerikanischer Wundarzt' (an American surgeon.) His age is given as forty-nine, his co fession Catholic, his condition single, and on the last form he says as to his destination, 'Going to America.' Whether he went to England instead, to commit the crime detected in Witechapel on September the 12th, I cannot say, but it is curious that on later visit to the Vienna in 1892 he described himself 'as a saugage maker.' So the period of the American surgeon was over." The President, in conclusion, handed the correspondent a photograph of the deceased criminal, which, he suggested, might perhaps be of interest at Scotland-yard.

The inquest has been held on the body of Dr. Heron. Verdict—temporary insanity. The Coroner took occasion to say that nothing had transpired at the inquest to give rise to a susp'cion that Dr. Heron had murdered the young lady "Ruby Russell" with whom he had lived. "Ruby Russell" — or Marion Sharpe which is her real name, was quietly buried yesterday in Finchley cemetery. Dr. Heron's letters, that were found by the police in the apartments at the Craven hotel in which he committed suicide, are published in full. They are interesting, but give no clue to the solution of the mystery of Ruby's death, about which the public is not yet satisfied.

Financial affairs are calm, but the Stock Exchange is firmer and more active. The Labour dispute in Lancashire has arrived at a crisis and fears are entertained that a great strike is imminent in the cotton trade. In foreign politics there is nothing of actual importance to report; but the increasing military expenditure in Germany causes uneasiness. *Vanity Fair* states that the German Emperor himself has outrun the constable and is very hard up.

In the *South American Journal* of this week are given the letters which have appeared in the *Times* on Brazilian finance, together with many reports of meetings and reprints of articles interesting to the River Plate public. Amongst other things it gives the following:—

We have of late observed, in our exchanges from Buenos Ayres, certain mysterious telegrams from London appearing in our contemporaries there, to the effect that the financial houses on this side were taking steps with a view to an adjustment of the Argentine debt on the basis of scaling down the interest at present payable. These announcements have naturally caused some misgivings in the minds of Anglo-Argentine investors. Apparently it is true that negotiations are in progress here with the object of arriving at some arrangement, and we are informed that one plan proposed is, not to "scale down" the interest on the loans, but to commute the railway guarantees by a payment of funding bonds, on such terms as would enable the Argentine Government in future to meet all its engagements abroad in cash. It is estimated that the amount of funding bonds already authorised by the law would be sufficient to provide means for carrying out such a transaction.

LATEST FROM CHILE.

Valparaiso, Oct. 19.

Lewis Joel, Esq. has been received by H. E. the President as H. M. Chargé d'Affaires,

Our advocacy of the nationalisation of coal and petroleum has not been sterile. The Council of State has given its assent to a bill to be presented to Congress to make these substances "denunciable."

At a recent meeting of the Superior Council of Health señor Cienfuegos called attention to the actual epidemic of typhoid fever in Valparaiso, and to the fact that Messrs. Salazar and Newman had discovered the typhic germ in the Quebrada Verde water. He specially called attention to this circumstance in order to reiterate his previous observations with respect to the proposed reservoir at Peñuelas. He predicts that the water from this reservoir, if the project should be carried out, will be far inferior to that of Quebrada Verde.

The Government has ordered a survey for the prolongation of the Palmilla and Alcones branch line to Pichilemu. This railway starts from the main line at San Fernando and has a total length of 43 kilometres, or about two-thirds of the distance to the coast at Pichilemu. The prolongation of the line to Pichilemu would greatly benefit the provinces of O'Higgins, Colchagua, and Curicó.

The financial measure has been referred to a committee of the Senate, and this step will create, in all probability, a week's delay. We are glad to see that Senator Ross is on the Committee, and it is to be hoped that his presence may be sufficient to preserve the bill from mutilation, and to ensure its quick dispatch through committee.

The middle of the autumn, says an exchange, will see the wedding of Miss North, whose coming of age was celebrated so magnificently by the rose ball given at the Hotel Metropole some three or four years ago by her father, the "Nitrate King." The happy man is a native of Liverpool, reputed to be clever and energetic, but not very rich. His name is Mr. Lockett, and he has been patiently biding his time these last four years. Miss North visited Chili three or four years ago in company with her father, and she has many friends here and in Iquique.

The following consular appointments have been gazetted:—W. Thomas Whitridge to be consul in Baltimore; and Mr. John Strachowsky to be consul in Steyr, Austria.

The French steamer, Perou, arrived at Talcahuano on the 11th instant, and was ordered into quarantine for five days.

The men employed in the railway work-shop at Santiago struck on Monday, against an innovation recently established by which they are paid by the hour instead of by the day, as formerly, and they also demanded an advance of 35 per cent. As they appeared to be riotously inclined troops were sent to guard the shop and station: nevertheless, a report has reached here to the effect that yesterday the strikers prevented the South express leaving Santiago, and that they had damaged the workshop engine, a Pullman car, and other rolling stock. The day express arrived here yesterday without a Pullman, which circumstance looks as if the report of damage to one of those cars were true.

The steamer Tarapacá arrived here on Saturday night and her commander reported that he left Antofagasta at 9 a. m., on the 5th instant, with the British ship Verbena in tow, which vessel sustained some damage by striking on a rock in entering the before mentioned port, and was coming here for repairs. Off Sarco they experieuced bad weather and had to put in there They also put into Coquimbo on the 10th for coal, and left again on the following day. On the 13th they experienced bad weather off Pichidangui, and on the 14th a chain and then two hawsers parted, and since then the Verbena has not been seen or heard of. The Tarapacá went in search of the missing vessel and returned without any tidings of her, and she has again left in search of her.—*Chilian Times.*

Advices from the Cordillera report a great increase in the number of people crossing. Some passengers for Europe are now crossing to embark here. The weather in the giant mountains is described as delightful.

THE CLEARING HOUSE FRAUD.

The official investigation into the circumstances of the Clearing-House fraud has been brought to a close. From the report published we gather the following:—In obedience to instructions the official auditors appointed to overhaul the books of the concern, began their task on the 31st ult. They put various questions to the employees and it was found that no register was kept of the names and domiciles of the shareholders. The concern, moreover, had no statutes. The employees knew of no shareholders in the concern. In other words the Clearing-House was not a joint-stock company. Neither was it a co-operative concern, because it was not styled so. Neither was it a concern of capital, nor a collective, nor an industrial concern Nevertheless, the nature of its operations gave it the character of a company, but an illegal company, illegal from many points of view.

The books were kept in so irregular a manner that they may be considered useless. They are those usually kept by companies. There is a letter-book for copying letters, but without the formalities demanded by the commercial code. There is another book recording obligations to be collected or paid. There are five books, full of blots and erasures, recording daily business. One of the books is to record the names of depositors. This book contains several interpolations and is thus illegal. In fact, all these books were illegally kept. There is also a book for the register of signatures. No proper day-book was kept. No inventory-book was kept. The books found are devoid of the formalities specified in Art. 53 of the Commercial Code. They are, moreover, a violation of Art. 54, and therefore they are of no value and cannot be quoted in favor of the concern (Art. 55 C. Code).

In regard to the deposit of cedulas made by Mesdmes. Rojo, the amount received and the interest paid have been recorded. From an examination of the "borradores," it is quite clear that it was not deemed necessary to keep a day-book.

The auditors then observe that:—(1). That there was no capital account kept. (2). That such indispensable accounts as share account were not kept. (3). That the books contain no reference to capital. (4). That the Clearing House received Cedulas, cheques and other bonds and ready money, selling or mortgaging the former and placing the latter with third parties or purchasing quotable stocks therewith. (5). That the cash on hand on the 27th October was $96.68. (6). That the Clearing House had not, to all appearances, any sum of money or any stocks deposited in any bank (7) That the manager and cashier (Leporatti) were in the habit of taking out cash, on account of salary.

The auditors arrive at the following conclusions:—That the Clearing House received the Cedulas stated by the plaintiffs (Mesdmes. Rojo). (2). That it is not possible to maintain that these Cedulas exist in the safe, it being probable that they were sold or mortgaged, when or how it is impossible to say. (3.) That the capital of the Clearing-House on the 27th October was $96.68, and the capital from July 1891 to that date never reached even $5,000. (4.) That the Clearing-House gave no guarantee whatever to its depositors, who were exposed to the danger of losing their deposits. (5.) That the Clearing-House was neither a serious nor a legal concern.

The report, of which the foregoing is the substance, was drawn up on the application of the following ladies: Serafina de Rojo, Paz Rojo, and Mercedes Rojo. The first mentioned handed in to the Clearing-House on July 24th, 1891, $18,000 Provincial Cudulas, Series P, 8,500 Series N, and 7,500 Series O, representing $34,000. These Cedulas were to be returned to the depositor on Jan, 20, 1892. The July coupon of 1891 was duly paid.

On Oct. 13, of the same year, the same lady received the coupon due—$680, and the April coupon (1892) was also paid with equal punctuality.

Mrs. Paz Rojo deposited 9,500 Cedulas Series O and 250 Cedulas Series P, representing $9,750, on July 24, 1891. These Cedulas, as in the first-mentioned case, were to be returned on Jan. 20, 1892. The coupons were regularly paid.

Mrs. Mercedes Rojo deposited, on April 26th of the current year, 5,500 Cedulas Series O on the condition that they were to be returned on Oct. 23 of this year. The April coupon was paid to her.

When the time expired for returning the Cedulas, Galles, who ran the business, did everything in his power to temporize, but the inevitable moment came, and the public are astonished at the facility with which he carried on his fraudulent concern.

EDITOR'S TABLE.

Everybody passed a wretched Sunday, except Jupiter Pluvius and Eolus, who spoiled all the fun in prospect. At the Boca they all got wet feet and bad colds, as the water was up to their knees. However, they were all right yesterday, which was a glorious day.

The event of yesterday came off in the Temple of Mammon, where Bears, stags, guttersnipes and the general public raised the roof of the hall with their cheers when the gold premium fell under 200. We can all remember the tremendous row a couple of years ago when the Gold Eagle first perched on the 200 peak; but the noise then was nothing to the jubilant roars yesterday.

We have pleasure in stating that the official inquiry into the circumstances of the fire which destroyed Mr. Christian Boss' hat shop in Calle Rivadavia the other night has been finished at last, and Mr. Boss has been released, as the mishap was in no way due to any negligence or carelessness on his part.

The Rev. Bernardo Vacchini is the new chaplain at Chuput, vice Father Vivaldi deceased.

Those who want to enjoy a good laugh should go to-morrow night to the San Martin Theatre to hear 'La Gran Via, Crispino é la Comare, and Cavalleria Rusticana', which are to be given in aid of the funds of the British and American Benevolent Society.

We feel pleasure in saluting our esteemed colleague the *R. P. Railway News* on its first anniversary. It is one of the most useful of the many papers of this city, and we wish it increased public favour and prosperity.

The "Company" of the B. A. A. Dramatic Club have returned from Rosario with fresh laurels, having performed "Caste" before a house crowded with—what is a rarity in this city—a wildly enthusiastic audience. At one drop scene the curtain had to be raised no less than 5 times before the audience felt they had shown their appreciation of the acting. The stage manager was in dread the play would never be finished. We had half feared that the repetition would drag somewhat, knowing well that amateurs, as a rule, fling their "lines" to the wind, having once satisfied their listeners. Our amateurs are, however, filled with the true spirit of their calling and improve upon each opportunity. Mrs. Showler is to be sincerely congratulated upon taking up in a most able manner a difficult role at a short notice, owing to Mrs. Tebbutt being prevented at the last moment from playing the Marquise. We have not forgotten "Caste" of last month, and after this glowing account of the "provincial tour" we are looking forward with sharpened appetite to to-morrow night, as we are informed there is hardly room left in the standing quarter of the "gods."

St. John's Church to-night at 8 o'clock. A choral festival of the combined Anglican choirs, solemn evensong and sermon by the Rev. C. W. Holland. This is an entirely new departure in the musical development of this oldest of our Protestant churches. The service is sure to be impressive: the choir consists of sixty voices. These services have been very popular of late years in England, and do much to foster an improved musical taste and raise the standard of public worship.

The honourable Deputies met at 3 p.m. The Judge Pizarro question was postponed till next sitting. The Custom House and Contribucion Directa Laws were passed and the House rose at 6 p.m.

Don't forget Cesari's benefit at the San Martin to-night. He deserves a bumper. "Le Donne Curiose," third act of Fra Diavolo: the cavatina from the immortal Barber, etc. Go, all who can.

The news of Mr. Humphreys, Royal Mail agent at Montevideo, having had a stroke of paralysis, has caused sincere regret to his many friends on both sides of the river, and we join them in hoping for a speedy improvement in his condition.

We are asked to advise the Ladies connected with the First Methodist Episcopal Church that an adjourned meeting will be held in the Lecture Room to-morrow at 3 p.m., for the purpose of making definite arrangements for the Musical and Social Entertainment, which is to be hold soon.

Very scanty news from Santiago of the Swamp yesterday. The Rojista Club was allowed to indulge in a popular manifestation. Rockets were let off. There were cheers for General Roca, Governor Rojas, and for the Interventor. There were no disturbances. The manifestants drew up in front of the Interventor's house, and Governor, or rather ex-Governor Rojas addressed him. He said that the hopes and future of the province were in the Interventor's hands. All he asked for was that the Interventor should display strict justice and impartiality. Dr. Costa, in his usually brilliant style, made an eloquent reply. He said he would be strictly impartial. Then there was fresh cheering. The manifestation was a very imposing one, and its popular features much struck the Interventor.

Something definite at length in regard to electric tramways. The representative of the Thomson-Houston Co., of the United States, now the General Electric Co. (which combines the systems of Thomson-Houston, Edison, Brush, Sprague etc.), announces that the exhibition electric line will be ready on Friday next, and all interested in the new method of traction are invited to go down to La Plata on that day and have a ride in the new car. Messrs. Cassels have chosen La Plata for the first trials on account of having every facility for power and for the erection of the special line at their disposal there. As soon as everything has been thoroughly tested and men educated up to the special work, the installation will be transferred to Buenos Ayres, Rosario or Montevideo, according to the arrangement made. The trials next Friday and Saturday will commence at 1.30 p m. to suit the convenience of parties from Buenos Ayres who may wish to go down and see them. The best train to take for that purpose is that which leaves Central Station at 12.

Listen to this tit-bit from *Tit-bits*, for Mr Thurburn and our banking friends in general. The fresh paint dodge will do splendidly for the next run, if the public do not take the hint and put on their worst clothes. Sharp steel spikes or large barbed hooks on the door posts, with a few man-traps on the floor, would be far more effective in keeping out frantic depositors than the paint ruse:—

"Some amusing anecdotes are being told of the devices resorted to by bankers to gain time and inspire confidence. On one memorable occasion the excited subscribers, much to their indignation, were only able to enter the bank one by one, except at the cost of spoilt coats, as the cute manager had caused the door-posts to be freshly painted. Another bank nearly prevented a crisis in its affairs by exhibiting in the windows large tubs apparently brimful of sovereigns. These tubs, however, were simply upside down, and small quantity of gold only piled up on their bottoms. But the most ingenious dodge of all was successfully carried out in Buenos Ayres quite recently. There was a run on a large bank, and for several days subscribers besieged the premises, withdrawing money and placing it in another bank on the opposite side of the road. It happened, however, that these two institutions had a private understanding, and as fast as the "safe" bank received the deposits they were returned to the "unsafe" one by an underground passage, with the result that everyone marvelled at its continued ability to meet its demands."

Any of our subscribers or absolutely constant readers who take an interest in Guatemala can see papers from that republic by calling at our office.

Doña Juana Gorriti, the Argentine authoress, died on Sunday after a painful illness. There was a large crowd of sorrowing friends at the funeral yesterday.

The petition for disbanding the Prison Guard at La Plata was presented to President Peña yesterday.

Government has given the Bateman Legacy Commissioners permission to fight it out with the house-owners who owe them such a lot of fines. Now, make a ring. Fair play is a jewel.

The distinguished Chas family have resolved to convert their house at the corner of Calles Florida and Corrientes into a beautiful church. The works will shortly commence.

Duran's grand saloons in Calle Piedad are now swarming with workmen, hammering, nailing, breaking open boxes etc. etc., in preparation for the preliminary Chicago Exhibition.

General Camacho, the Bolivian patriot, is in town.

"The Defunct Loan" is now the topic of the day at Montevideo, and President Herrera and Congress are getting broad-sides of red-hot shot from the papers. It appears that both have been fooled "by some daring agents with their lying assurances." All, or nearly all, men are liars. The service on the Ellauri Confiscation Loan is within measurable distance of being suspended. Our unfortunate London friends!

"Campesino" can see in our last issue that the raffle of the Golondrina quinta at Lomas has been postponed till Christmas Day.

Our Spanish fellow-citizens are preparing one of their attractive Romerias at South Barracas, on the 11th, 12th and 13th inst. Mass, dancing, music, rockets, banquet in a big tent etc. etc., form the three days' bill of fare. The City of Buenos Ayres Tramway Company will run an extra number of cars for the occasion. There is nothing since the abolition of the famous Fair of Donnybrook, near Dublin, half so jolly as a Spanish Romeria.

We have to thank Mr. Attwell for a free ticket for the Pilgrimage to Lujan on the 13th, when he will run an excursion train there and back. He also intends going much farther afield, and will take tourists in his trains all over the country quicker and at cheaper fares than the Railway Companies themselves. Mr. A. is also prepared to offer travellers to Europe and Chicago special advantages. Better call and interview him at No. 463 Calle Piedad.

What are agricultural machinery men about? Hear what the *Argentine News* of Rosario says:—"The scarcity in Agricultural machinery is making itself felt. We know of one man who required 24 headers and binders, but could only be supplied with 3, at one of our largest importing houses. The amount of business done in this line already this season has surpassed anything previously recorded in the city. Agriculture is the salvation of the country, because government has nothing to do with it, and despite the recent attempt of one miserable government to harass the industry by obnoxiouy taxation, It will survive and eventualls pull the country round the long talked of Corner."

Dumas states in his autobiography that when a young man, in 1824, he was engaged as an under-secretary in the household of Louis Philippe, then Duke of Orleans. He came into his office one morning greatly moved, and exclaimed to his companions, "The news has just been received—Byron is dead!" They looked up calmly from their papers and inquired. "What is Byron?" as if the poet were perhaps a race horse, or a coursing dog. When the announcement was made that Garibaldi was about to visit England, a lady of rank and culture was asked if she would not be pleased to see him. "Who is Garibaldi," she replied, "a new opera singer?" The hollowness of brag is sometimes disclosed in the same glimpse of truth which shows ignorance. A young London clerk had had a short run to Scotland, and when he came back knew everything and had been everywhere. His airs were rather tiresome. A Scotsman casually in his company said, abruptly, "Did you see Ben Lomond when you were there?" "No, I did not," was the reply. "I called on him, but he was out."

In reply to "An Inquires" who asks whether, when a man "breaks his fast" in the morning, he is morally bound to keep the piece (s), we beg to say that the various authorities which we have consulted afford no means of arriving at a definite conclusion upon the matter. If, however, our peaceable correspondent had desired us to name the best house in this country where he could obtain the finest underclothing of Standard excellence and at moderate prices, we should at once have unhesitatingly replied "The nEnglish," at which justly renowned establishment the special lines of "Pyjama" always merit attention.

Monday, Nov. 7th
Gold Premium.

First Ring......... 201.00%
Second Ring....... 201.40%

The week opened this morning with wild fluctuations in the gold market and a brisk speculation. Over three hundred thousand gold dollars changed hands for cash at the first ring: the premium opened at 203.50%, fell in most erratic manner to 199%, and closed at 201%. Four hundred thousand dollars were sold for the end of the month at 202.50% to 200.50% premium. Operations for the end of December embraced three hundred thousand dollars at 200 to 198% premium, closing at 198.50%. There were moments when the bearish speculation threatened to become panicky for cash; the feeling for the end of the month was steady.

Patriotic Bonds were neglected at 73.40-30. Nothing was done in Internal Bonds. Catalinas were firmer than last week at 8.70. Municipal Consols rose to 62 for the end of the month. La Plata Cedulas were very dull, but firm at 32.20. A few 75% scrip of the Bolsa Bank changed hands at 15.

Exchange continued in "statu quo." Discounts were easy.

The following is a summary of the business effected at the first ring today:—

Messrs. Eastman and Kenny, auctioneers, will sell on Thursday next at 3 p.m. a square league of prime camp in the partido of Lincoln. The new branch of the Western Railway will run close up to the land which is wire-fenced and valued at $40,000 m/n. Messrs. Drabble, Ricketts, Walker, Duggan and others are near neighbours, and we advise those of our friends who have a little ready money not to miss the auction, as the land is cheap at double the valuation and in a few years will all be under wheat and maize.

House Calle Arenales 1001 sold for $36,000 m/n buyer Mr. Cornejo.

House Calle Entre Rios 459 8½ x 33, for $17,000 m/n. Do Calle San Juan 765, for $14,000 m/n. The fine Tigre Quinta auction was postponed owing to the storm and the flood, the river in the streets, and bidders would have had to go to the auction in boats; but the Tigre, in spite of the flood, looked lovely this morning and the sun shone gloriously through the weeping willows and Caroline poplars that fringe the road in front of the Duomo, the four courts, and the chapel of ease. The Tigre never looks better than when it is half sunsbine half tears, and the mud this morning in some of its sweetest avenues was deep as a well and as wide as a church door.

The Inspector-General has approved the station-plans presented by the Central Argentine Railway on Sept. 28 last.

The robbery of a well known exchange broker of jewelry, to the enormous amount of 60,000 dollars gold, is the talk of the Bolsa. Few of the brokers ever supposed that any of their members had even 1/10 of this amount in jewelry, and they look forward with much interest to the police list of the articles stolen. When the news of this robbery reaches London it will cause downright astonishment, as the people there think that owing to the late crisis we are all on our last legs out here; but when they discover that a member of the Bolsa of Buenos Ayres has more jewelry on the table of his dressing room than any member of the stock exchange in London, their sympathetic feelings for our most distressful condition will be changed, and very possibly this enormous robbery of jewelry will contribute towards an easier arrangement of our public debt. We cannot say that we condole with the broker on his loss since we consider in the present state of the country so large an amount of capital in jewelry is impolitic and unproductive; far better would it be to have 60,000 sheep on the banks of the Rio Negro with 60 families tending them on halves as in the good old times of Buenos Ayres, when every man who went out to the camp to work got a flock of sheep on halves to start with. In former years there were a few brokers renowned for the magnitude of their diamond rings, which blazed and sparkled round the old Bolsa hall. We do remember one of those celebrated rings which was valued at 25,000 paper dollars of the old currency, and it was considered the most valuable ring in this market. There was another Bolsa gentleman who shone in diamond studs; and we well remember an American Minister, whose weakness was diamond studs and who offered a large sum for the broker's, which was declined. Of late years people have gone very much into jewelry in this town; and although we are still far behind Rio Janeyro in brilliants and in diamonds, yet all our city jewellers do a roaring business; some of them have large estancias in Mendoza, and although the crisis in Montevideo surpasses description, still tourists and others admit that at bareau's Calle 25 de Mayo, Montevideo, there is a grander display of diamonds than in Paris.

We note in a London paper received by the mail that they think there the new Argentine Government will reduce the 80 per cent "ad valorem" duty on wines and also the 50% per ton on sugar, and that the Argentine Chalet of the Paris Exhibition is to be shipped and put up in Chicago. All the Argentine Government shares in the Central Argentine Railway and held by the Bank of England as assets of the Barings

have been bought by a syndicate of London bankers, who have already sold £400,000 worth and will hold the balance, £300,000 for 3 years, which will be a great help to the market.

Colonel Goldsmith, who is Baron Hirsch's representative in the Plate, was warmly welcomed on 'Change on his return from Entre Rios, where he has been visiting the Jewish colonies, which, he says, are all thriving and doing well. None of these colonies in the Plate are doing so well as those in Entre Rios; and, strange to say, many of the colonists who were most unfortunate in Santa Fe are now most prosperous in Entre Rios. We learn with much pleasure that there is no truth whatever in the rumour that Colonel Goldsmith was about to leave for England and retire from the position which he so ably fills, and we congratulate him on the success of his colonies in Entre Rios. We hope soon to get equally good news from 9 de Julio, where Baron Hirsch has a very large and valuable property.

With pleasure we announce that the Rio Negro Salt Company has at last raised sufficient capital in Glasgow to start its railway works. Materials will be sent down and also workmen; two lines will be laid, one to Rio Negro and the other to San Blas; small steamers will load the salt in the Rio Negro and large sailing vessels in San Blas.

The sale of the wool of the Tres Bonetes estancia near San Blas, 30,000 kilos, deliverable on the estancia free of all charges at $4.50, was concluded to-day by telegram.

The storm in the Boca and in the Madero docks was a regular Santa Rosa. The streets of the Boca were inundated and the spray of the waves that struck the sea-wall came over the tops of the houses in the Paseo Colon. The Montevidean steamer Venus, due here on Sunday morning, had a very hard time of it with over 500 passengers on board. She anchored before daylight in the channel; she dragged her anchors and ran on to the dredge; luckily she caught the chain of the dredge which held her, and at 11 a.m. she got into the dock, where there were crowds assembled anxiously waiting for her. She brought up the passengers of the Lusitania and, having landed them all safely, started again for the Uruguay with Mr. Tullock and a gay party of friends who are bound for Salto. It was blowing hard and missing, when she left and the assembled Italians, who stood on the dock, gazed in mute astonishment at the Ingleses embarking in such weather on a pleasure trip. The steamer San Martin, posted for Paraguay, attempted to start at 2 p.m.; she was also crowded with passengers, but the moment she let go her hawsers and before she could get well under way the wind caught her broadside and blew her clean on to the dock wall, smashing her wheel. The passengers embarked to-day in another steamer of the same line. The North American mail steamer Alliance and the German steamer Strassburg could not leave, owing to the storm; they sailed to-day; and the port doctor who attempted to go out on Sunday morning to visit several steamers in the roads, had to put back, as the "patron" of the little steamer declared they would be all drowned if they proceeded any further. Around the beautiful little suburb of Quilmes the waves of the river washed up to the barranca, flooding all the low lands, and on the south side of the Riachuelo the whole country is flooded as also San Isidro, San Fernando and the Tigre; the flood in the latter place being unusually high, and all the lovely "quintas" invaded by the river. Telephone wires out of order and communication cut off.

The National Government took exchange on Saturday for £25,000 to pay special accounts in London, and took a further sum of £12,000 through the Banco de la Nacion to remit to Morgan and Co. for service of the '86 loan. Mr. Alkaine, government discount broker, discounted 600,000 dollars government excise bills in the London and River Plate Bank at 5½ % which shows how very cheap money is in the market, and the National Bank in liquidation paid over to the treasury 300,000 dollars for stamps sold in the stamp office at the old bank. It is very strange that this money should have remained so long in the hands of the National Bank, as no stamps have been sold there for the last two years.

Messrs. Lima and Fernandez have published a lengthy statement about the smashed-up South American Clearing house; the paper is very long and throws no fresh light on this great swindle. De Galleys, the manager, kept furnished lodgings in various parts of the city, and it is thought he is hiding in some of these lodgings. He lived in great extravagance and spend 30 nationals a day on Havannah cigars. No regular books were kept, and consequently it is difficult for the syndics to say the total amount of the swindle; as many parties who trusted and were deceived will probably be unwilling to give their names.

Another robbery brought before the police again reminds us of the fact that the people are not depositing money in the Banks but keeping it in their houses. 9,000 dollars have been stolen from a house; had this money been deposited in one of our city banks the owner would not now be looking for his money.

We have received from Messrs. Mackinlay Hnos. their interesting monthly diagrams of the march of gold during October. The diagrams are valuable to bankers and merchants.

The Central Station was crowded today with friends bidding farewell to Mr. Hermann Schlieper, head of the well-known importing firm H. Schlieper and Co. Mr. Schlieper goes to Europe on a well-earned vacation and intends spending several months in "bella Italia." Many members of the great German Club Turn Verein, of which Mr. Schlieper is President, assembled to see him off and wish him a pleasant voyage.

The Governor of Tierra del Fuego writes that the Ushuaia towed the Commodore Py into Puerto Bridges. The Py will do service for the port authorities. The Governor has also written to the Minister of the Interior urging the necessity of appointing port authorities at Ushuaia.

Dr. Plaza has informed the National Government that the steamer Buffon has loaded a cargo of machinery for the City Improvement Works.

The steamer Gerda, of Messrs. Mackill, Murray and Co., is posted to leave the Boca for Patagones on the 9th inst.

Paper Money.

Projectors every now and then start up with plans for curing all the economical evils of society by means of an unlimited issue of inconvertible paper There is, in truth, a great charm in the idea. To be able to defray the expenses of government without taxation, and, in fine, to make the fortune of the whole community, is a brilliant prospect, when once a man is capable of believing that printing a few characters on bits of paper will do it. The philosopher's stone could not be expected to do more.

The substitution of Paper for metallic currency is a national gain: any further increase of Paper beyond this is but a form of robbery.—*John Stuart Mill on Inconvertible Paper Currency.*

Paper Money properly means paper made legal tender, and not legally convertible into gold, or anything else, at the pleasure of the holders, or at any given period. No part whatever of the value of such paper money is derived from confidence. It circulates because it is made legal tender, and because the use of a circulating medium is indispensable; and its value, supposing the demand to be constant, is in all cases inversely as the quantity in circulation.—

PHOSPHATIC

BAKING POWDER

BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation. The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.

What a wonderful result is this !"

SHEEP DIP

TRADE AGARICIDE MARK

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties.—At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping.** We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the **"Thorncliffe Sheep Dip"** as one of the safest and most effective dips that has ever come under our notice.

Rifa de "Las Golondrinas"

Tendra lugar infaliblemente el Domingo 25 de Diciembre proximo la rifa del Chalet "Las Golondrinas," en vez del dia 6 de Noviembre como estaba anunciado. Al acordarse esta prorroga por la Municipalidad de Lomas de Zamora, se ha tenido en cuenta el retardo en la venta de los numeros de esta rifa, por la hostilidad sistemada que se le hizo en la Capital Federal y que perjudicó momentaneamente al credito de una rifa que es a todas luces seria y honrada.

Felizmente su exito esta ya asegurado, porque en los ultimos dias se han vendido considerable numero de billetes y la postergacion hasta el 25 de Diciembre—cuando recien empezará la gira veraniega a los pueblos de campo—no trae perjuicio ninguno para el publico, antes al contrario, el agraciado con la suerte se evitara los gastos de conservacion, que revisten importancia, por el esquisito comfort en que tiene los edificios y jardines su actual propietario.

The splendid New Beers

'BAVARIA' AND 'PILSEN'

Which have proved such a success.

ANALYSIS

made by Mr. Francisco P. Lavalle of the National Department of Hygiene.

The undersigned certifies that he has examined two samples of Beer, named "BAVARIA" and "PILSEN" which were sent by Mr. John Russell, General Manager of Bieckert's Brewery Company Limited, with the following result:—

	BAVARIA	PILSEN
Density.........	1.018	1.011
Alcohol per 100 in volume....	4.50	4.65
Extract per 1000	59.05	46.85
Ash „	2.90	2 50
Sugar(reducing)	6.16	8.33
Acidity in lactic acid.........	1.22	1.27
Colouring matter..........	toasted malt and hops	toasted malt and hops
Bitter matter ..		
Preserving matter	does not contain	does not contain
Phosphoric acid per 1000......	0.38	0 43

From the above analysis it can be seen:—

1st. That the two samples do not contain any substance injurious to health.

2nd. That both are good and fit for consumption.

3rd. That due to their general composition they are similar to the imported beers that bear the same brand.
